WASHING MACHINE.

The Canadian public, and more particularly the French part of it, we are happy to inform you, have adopted our Machine, with a very extensive and very valuable WASHING MACHINE.

One that has been sold in Canada, is now in every part of the world till within the last six or eight months.

It has three principles, viz.,

1. THE ACTION.

2. THE ACTION.

3. THE ACTION.

which can be used at the will of

the user. We would state for the information of all who are not yet acquainted with our Machine, that it is the best in the market.

It is a simple, safe, and reliable machine, which will wash any article, at least of the time, labor, and soap can be saved, which are usually consumed by all other methods of washing, and that a large quantity of water is saved, which is washed away without the loss of a drop.

It is a machine even the first time used, can be done in half the time, if you choose, without making any soap or dirt whatever.

The use of this machine saves away all the trouble and expense of washing, and handled by any old lady or small girl, as it turns very easily, and only washes about thirty-five pounds. A trial of it cannot fail to convince the user of its value in saving time.

It can be put on a table, bench, chair or any other place being well.

This machine has now manufactured in Belleville, Canada West, by Mr. Payne, for us.

Mother, then, unto thy daughter
A gentle mother, bring me light
As the twilight hours begin,
Uphold me, be a balm.

Uphold me, be a balm!

What's a lady? It is something
Made of looms and mills and air,
Used to make us wear.

Like the fancy rings and chaise!

It is what who wears no model
To make us wear.

It is this to be a lady.

It is not to be a woman.

Mother, then, unto thy daughter

remained the evils complained of, as he could not see that it would be a wise undertaking for him to go to prison; so he had resorted, sufficiently high, to protect himself from outsiders, and the escape of prisoners. To someone a criminal to hard labor, was at present the best alternative. He had been compelled by his master to work, and many during the long winters past, lying in jail, for it became evident to him that he was not safe cared for; so that the terrors of imprisonment were altogether lost. He trusted the proper authorities would take the master in hand.

THE BELLEVILLE SEMINARY.

We have received another long letter from "Honolulu" in reply to "Vigilus." The letter is too long for this week's issue; our column being already filled, and is therefore left over for consideration. The more we read it, we would suggest those interested in the welfare of the Seminary, the propriety of putting a stop to this controversy, as no possible good can arise from it. It has now advanced to that point, when personal recrimination is almost alone indulged in, by the contending parties. The public care little about the personal qualities of the Managers and late President of the Seminary, and still less about what every man in the Country, as to the institution proper, and the question for those interested, to decide is, whether a personal newspaper will add to its popularity!

SUIT AGAINST MINISTERS.

The suit entered against Members of the Administration, for a forfeiture of penalty, for sitting and voting in the House of Assembly after receiving office, without going back to re-election, has been withdrawn by the Plaintiff, on the ground that there was no issue to go to the jury. The points of law, however, are still open, and the suit, and retaining the same without re-election, is legal, will therefore be left to the Judges. The Globe is fearfully annoyed that Ministers did not deny having taken office in manner laid to their charge, so as to enable it to blazon forth a verdict against them, which must have been the case, had they denied the allegation of the Plaintiff, that they did retain office, without going back to the people for re-election.

DR. GOUREAU, M. P.

From our Lower Canada exchange, we learn that Dr. Goureau, member for the County of Maskinonge died on the 20th Inst., after an illness of several months. This will evict a vacany in Parliament, and consequently cause another election.

A CORONER.

The last Coroner contains the appointment of Richard Cowman, Esq., of Madoc, as an associate Coroner for the County of Hastings.

SOUTH HASTINGS SHOW-DISCIPLINARY PREMIUMS.

Below will be found the list of disciplinary premiums, awarded at the last fair held in Belleville, which we copy from the *Chronicle*, as the present Secretary of the Society delineates his views to that paper solely. In these matters, which cost the Society nothing, and all classes were interested, copies of the same information should be received to the local Press in whole, and not confined to a favorite. After a few years occupancy of the office, in all probability, he may find out that there are other persons interested in the result of our Shows, than the readers of the *Chronicle*.
